# OUR HISTORY

---

*1881*

Daniel Haynes starts making mattresses for his friends in the town of Sealy, Texas. The 'mattress from Sealy' is born.

*1885*

Popularity continues to grow when Haynes invents a method for making superior tuft-less mattresses.

*1923*

The future 'Sealy of Australia' begins trading as Madad. The company originally builds furniture as well as mattresses.

*1950*

The Sealy Posturepedic® mattress is developed in conjunction with orthopaedic surgeons.

*1969*

Sealy of Australia launches the first Sealy Posturepedic range in Brisbane, and begins to change the way Australia sleeps.

*1994*

PostureTech® Sense & Respond technology arrives. Sealy Posturepedic becomes Australia's number one selling premium bedding brand.

*2001*

Sealy invents the Dual Support System®, a technological breakthrough which provides individualised conformance and deep-down correct support.

*2012*

A new era of support technologies arrives with Sealy's first graduated coil design, the SRx Titanium support system. It is soon followed by the ReST II coil, designed and made only in Australia.

*TODAY*

In a world of mass production Sealy beds are handcrafted one at a time, combining latest technologies with quality materials.
